

# Organisers back 'bunker review' consistency at World Cup

Rugby World Cup organisers are confident that their 'bunker' card reviews are bringing more consistency to the game despite some debateable calls in this year's tournament.

Scotland coach Gregor Townsend hit out at the television match official (TMO) and bunker review system after Afusipa Taumoepeau of Tonga only picked up a yellow card for a head-high tackle on captain Jamie Ritchie.

A yellow card can be upgraded to a red after officials review the action within eight minutes after a player has been

**ANNOUNCEMENT OF THE DEVELOPMENT OF A STRATEGIC ENVIRONMENTAL ASSESSMENT (SEA) FOR THE EXPANSION OF THE RENEWABLE ENERGY DEVELOPMENT ZONES: REQUEST TO REGISTER AS AN INTERESTED AND AFFECTED PARTY AND TO PARTICIPATE IN THE SEA PROCESS**

The Department of Forestry, Fisheries and the Environment (DFFE) hereby informs all interested stakeholders of its intention to embark on a Strategic Environmental Assessment (SEA) for the expansion of the Renewable Energy Development Zones (REDZs). This SEA expands the scope of Phase 1 and 2 of the Wind and Solar photovoltaic (PV) SEAs for the efficient and effective rollout of wind and solar PV energy in South Africa. The overall purpose of this SEA is to:

- reassess the boundaries of the Emalahleni and Beaufort West REDZs to determine the possibility of including additional areas along the boundaries;
- reassess five REDZs for accommodating wind energy technology (in addition to solar PV);
- investigate the potential to mitigate the electrocution risk for vultures from existing electricity distribution lines in the Stormberg and Cooxhoo REDZs that utilise old design specifications, through a participatory approach.

Should you wish to contribute to the SEA development process you are requested to register on the national SEA website: <https://redzs.csir.co.za/>. As a registered interested and affected party you will be informed of the SEA progress, availability of draft documents for public comments and dates/location of public meetings.

"The decision is explained to that supporters can have a better understanding," World Rugby general director Alan Gilpin told a press conference on Wednesday.

"The strive for consistency is ongoing. Hopefully what everyone sees is that communication on the field is clear," he added, declining to comment on individual cases after being asked about the tackle that eventually ruled flanker Ritchie out of their Pool B game against Romania on Saturday.

"We've seen a number of incidents where foul play was reviewed and there was great consistency from the bunker," Gilpin said.

"Rather than playing five or six replays on the screen when the crowds are excited we put it into a calmer environment. Every individual case has its specificities."

TEMBA BAVUMA

## As Bavuma misses warm-ups, acclimatising the priority for Proteas

**STUART HESS**

Phase one of the Proteas' World Cup campaign sees them face Afghanistan in a warm-up match in India on Friday where the priority will be to shake off the travel stiffness, get a first taste of conditions and build rhythm a week before their opening match.

SA will have to do so without skipper Temba Bavuma, who has returned home for what was described as "family reasons."

The team hopes to have Bavuma, who will also miss Monday's second warm-up match against New Zealand, back in time for the World Cup opener against Sri Lanka in Delhi on Saturday week.

In his absence, Aiden Markram will captain the side while Reeza Hendricks will open the batting with Quinton de Kock.

Though losing is never ideal, the Proteas will not be going full tilt in what is essentially a pair of glorified training sessions.

They will not want to create bad habits, however, and the confidence built up by coming back against Australia is also an element they will not want to see ebb away by being sloppy against the always determined Afghans.

Greenfield International Stadium in Thiruvananthapuram, in the south of India, has hosted only two ODIs, with the home team earning dominant wins in both.

SA's only match there was a T20 International in 2022 when they were blown away by a devastating opening burst from swing bowler Arshdeep Singh that saw the Proteas restricted to 106/8.

There are five players in the Proteas World Cup squad who played in that match, but it is safe to assume the intensity of that encounter will far outstrip anything they will encounter on Friday.

It is more a case of acclimatising to conditions, and while Thiruvananthapuram is nearly 3,000km from Delhi, the pace of the pitch will be the same as what they will encounter in the Indian capital when they start the tournament.

"It helps when you understand the conditions in the various grounds and having played in India for years gives you a familiarity on how to go about your tactics," Kagiso Rabada said.

"Most of our team have played in India, but for those who haven't as much, it is important to share experiences.

"In India you have drier conditions and they are batter-friendly wickets, so it's about finding ways to be successful."

Rabada missed the last ODI against Australia with an ankle niggle and while he was pleased to get through that series, for him and the rest of the seam attack, making the adjustments to Indian surfaces where lines need to be straighter will be a priority in the two warm-up matches.
